

A photograph of two scientists in a laboratory setting. On the left, a Black man with glasses and a beard, wearing a white lab coat, is smiling and looking towards the right. On the right, an Asian man in a white lab coat is looking back at him. The background is a blurred laboratory with shelves and equipment. A large, white, abstract shape resembling a stylized 'G' or a molecular structure is overlaid on the left side of the image.

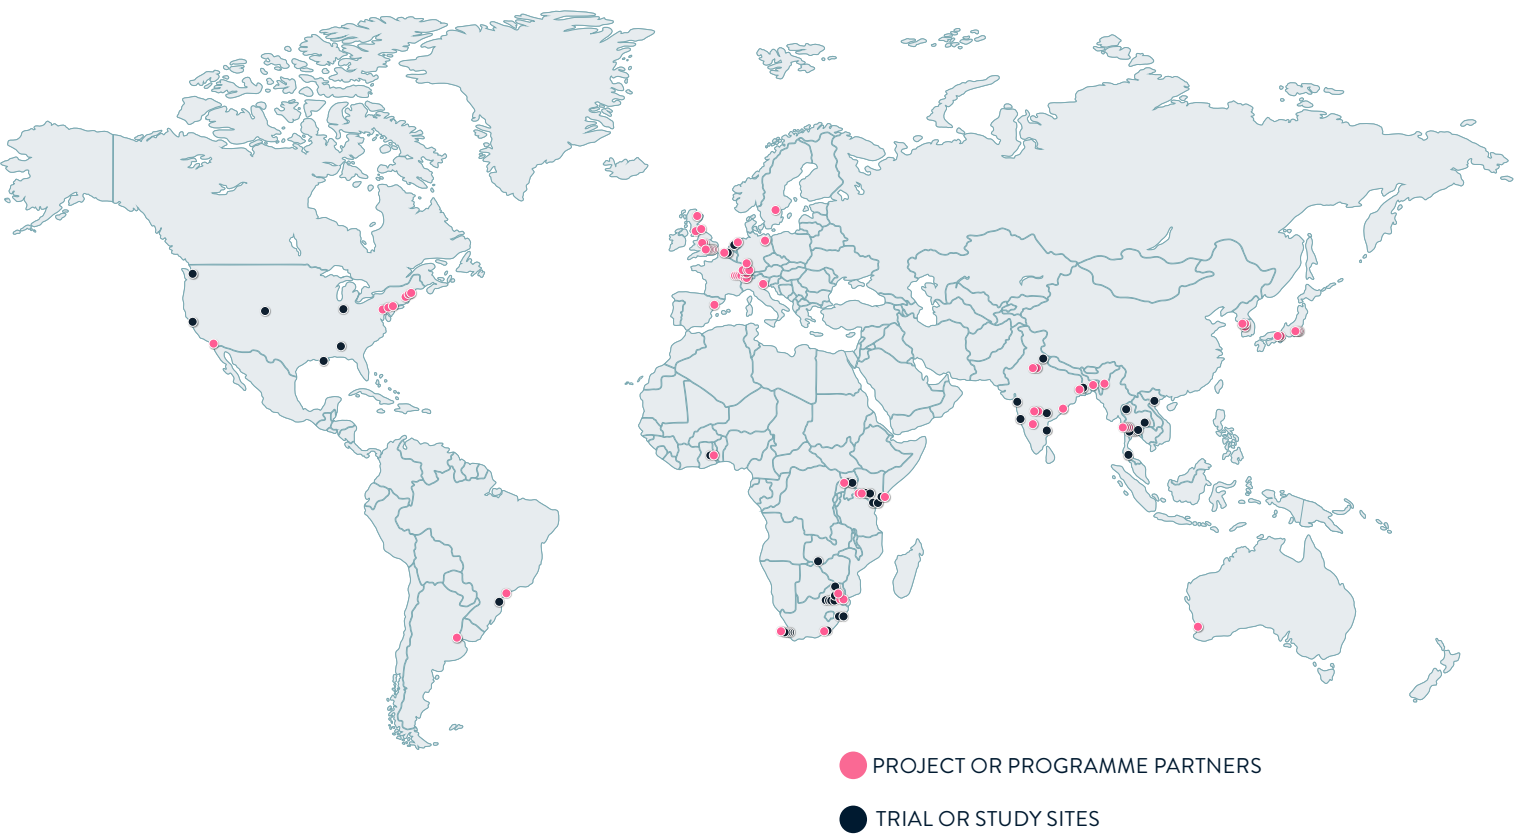

PARTNERS*

GARDP works with over 120 organizations in more than 20 countries, bringing together leadership and expertise from the Global North and Global South to address the AMR crisis effectively and equitably.

UPDATED JANUARY 2025

WWW.GARDP.ORG

We are a not-for-profit global health organization driven to protect people from the rise and spread of drug-resistant infections, one of the biggest threats to us all. By forging the public and private partnerships that matter, we develop and make accessible antibiotic treatments for people who need them. We receive vital support from the governments of Canada, Germany, Japan, Monaco, the Netherlands, Switzerland, the United Kingdom, the Canton of Geneva, the European Union, as well as the Bill & Melinda Gates Foundation, Global Health EDCTP3, GSK, the RIGHT Foundation, the South African Medical Research Council (SAMRC) and Wellcome. We are GARDP, the Global Antibiotic Research & Development Partnership.
